# MASTERPIECE COLLECTION

YOUR TIME IS A UNIQUE STATEMENT.

The timepieces in the Masterpiece Collection are the perfect synthesis of Maurice Lacroix know-how and are anchored in an urban, dynamic and elegant 21<sup>st</sup> century.

# YOUR TIME IS SUBJECT TO THE FORCE OF GRAVITY.

MASTERPIECE | GRAVITY

The Masterpiece Gravity inspires and challenges convention. It is a contemporary timepiece, at the cutting edge of progress, that does not merely convey time but emotionally engages with the wearer with creative expression. It presents its oscillator and cutting-edge silicium assortment centre stage on the dial side of the watch. The spectacle of seeing the oscillator beating, along with the pallet lever moving, is very entertaining and emits an attractive force few will be able to resist.

## MASTERPIECE | MYSTERIOUS SECONDS REVELATION

In 2016, Maurice Lacroix chose to reveal a little more of the mystery many want to uncover, but the secret remains untold, playfully teasing curious minds. Indeed, as Einstein once remarked, "The most beautiful thing we can experience is the mysterious".

The hypnotic effect of the moving components, communicating time with a playful flourish of style, has won many awards. Clean and simple in appearance, the Masterpiece Square Wheel has become an iconic member of the Masterpiece family.

MASTERPIECE | MOON RETROGRADE  
& DOUBLE RETROGRADE

Shortly after Maurice Lacroix was founded in 1975, the company produced its first Retrograde model. Ever since, this genre of timepiece has played a key role in the history of Maurice Lacroix. In 2003, the progressive brand unveiled its first double Retrograde model, featuring a Manufacture movement.

This year, Maurice Lacroix returns to its roots, unveiling two types of Retrograde watches: the Masterpiece Double Retrograde and the Masterpiece Moon Retrograde.

# YOUR TIME IS SHARPLY SOPHISTICATED.

## PONTOS | CHRONOGRAPH

The dial of a chronograph, by virtue of the quantity of information it presents, can potentially appear overwhelming. Consistent with the reputation of the Pontos collection for succinct communication with the wearer, the Pontos 43 mm Chronograph imparts information in a user-friendly form.

## LES CLASSIQUES | DATE

“Simplicity” and “Sophistication” may sound like two contradictory words. However, the two words are wonderfully apt when describing Les Classiques Date.

On one hand, simplicity is delivered by three hands, one date. It’s that simple, or, so it may seem at first. But sophistication is granted by the distilled creation of the handsome Les Classiques Date. Each element has been the subject of prolonged consideration. In several instances, seemingly small details when viewed in isolation wonderfully influence the whole appearance of the chosen model when combined.

# AIKON COLLECTION

YOUR TIME IS ICONIC.

Few watches are regarded as an icon. The aspiration to create a watch that is immediately recognised by many, purely by seeing its unique design, is shared by all watch companies. In the 1990s, Maurice Lacroix had such a watch, the Calypso. This iconic quartz timepiece graced the wrists of many style-conscious wearers and proved very successful.

In 2016, the progressive watch company, Maurice Lacroix, has updated this iconic watch, aptly named the AIKON; a timepiece with a new, contemporary design, honed to modern tastes.

# YOUR TIME IS NOW TO CHOOSE YOUR AIKON.

## AIKON | CHRONOGRAPH

The AIKON Chronograph 44mm offers superb wrist presence, exhibiting a strong character and confident persona. This timepiece provides excellent legibility and, courtesy of its thoughtful case design, delivers exceptional wearer comfort. This is a watch equipped with a convenient stopwatch complication, proving ideal for measuring elapsed periods of time when vital seconds matter.

Maurice Lacroix, consistent with its culture of continuous improvement, has revisited its Eliros collection. The latest models incorporate numerous specification improvements, including a higher level of finishing, typically only found on more expensive timepieces within the Maurice Lacroix family of models.

## ELIROS | CHRONOGRAPH

The calm, relaxed temperament of the Eliros collection provides an interesting contrast with the notion of recording elapsed time where speed is critical and fractions of a second matter. However, the Eliros 40mm Chronograph simultaneously combines both characteristics in one harmonious composition.
